

GRAIN MOISTURE METER

Coffee Beans

Model : EE-KU

Technical Specifications

- 1) Manufacturer / Brand: Grainsure
- 2) Model: EE-KU
- 3) Application: Green Coffee Beans
- 4) Measurement Range: 6.0% – 30.0%
- 5) Sample Weight Required: 100 grams
- 6) Operating Temperature Range: 10 – 45 °C
- 7) Accuracy / Margin of Error: Less than 0.5% (for moisture range 6.0% – 20.0%)
Less than 2.0% (for moisture range 20.0% and above)
- 8) Grain Weighing: Digital scale, 1-decimal place resolution
- 9) Temperature Compensation: Via provided conversion chart
- 10) Grain Temperature Measurement: Glass stick thermometer
- 11) Measurement Principle: Capacitance method
- 12) Display: 3-digit LCD screen, 12.0 mm character height
- 13) Power Supply: 1 x 9V Battery
- 14) Dimensions: 116 mm (Width) x 120 mm (Length) x 150 mm (Height)
- 15) Material: Folded metal sheet, heavy-duty and impact-resistant
